

GREER ELEMENT™

The Greer Element™ is the industry's only crane monitoring display that offers feature-rich capabilities, multiple screens and language conversions to help operators work safer and smarter. Unlike other monitoring displays, the Element offers true VGA graphics to view real-time information sharper and easier. Dynamic screens enable operators to switch between multiple windows and offers fingertip access to work area definition (WAD), crane configuration, diagnostics, gauge readings, and other critical data from crane sensors.

Advanced Features and Benefits

- VGA Graphics Display for sharper and clearer images
- Attractive 7 inch screen with intuitive touch pad operator input
- Multiple Screens to view WAD, crane configuration, diagnostics, gauge readings and other sensor data
- Customizable configuration with minimal keystrokes
- Multiple language menu with capability of additional languages
- CANJ1939 & CANopen enabled
- Visual and Audible alarms
- Entire Console is Ip67 Waterproof

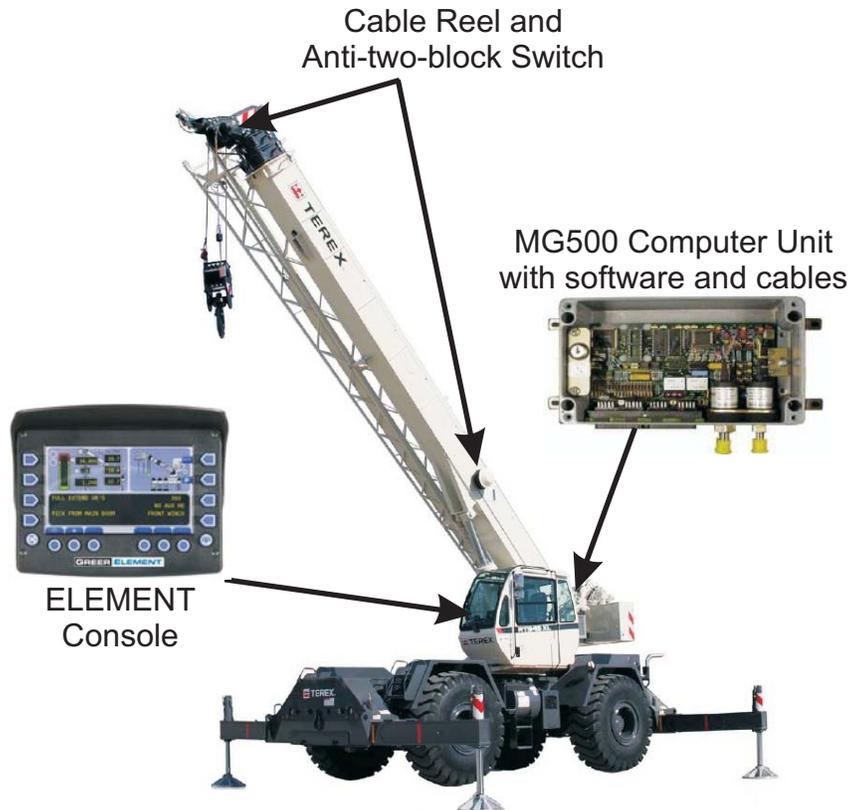

MicroGuard Options

- Hoist Drum Rotation Indicator
- CAN bus communications
- Data-Logging
- External Bar-Graph

System Specifications

Operating Voltage	6v to 32 v
Operating Temperature	-40° C to 85° C
Protection	Ip66/67
Integrated	250 bar Pressure Transducer
I/O	8 Analog & 4 Digital
Display	High Resolution Color VGA
Communication	ANJ1939 & CAN Open
DATA upload	USB 2.0 host

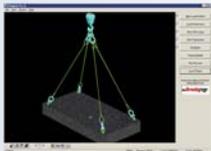

About Us

SkyAzúl is an industry leader in the sales and service of information and control systems for construction equipment. SkyAzúl specializes in providing system design, logistics and project management for a comprehensive equipment solution.
